BIO

Between untold stories of the Kalahari desert and hypnotic melodies of the kalimba, Afrovival submerges us into melodic tunes that echo far reaching villages and streets in Africa. Combined with an original and contemporary play on voice, story, dance and score, the Afrovival experience entices audiences feet to move to an infectious beat that uplifts and connects.

Experience the heart and soul of Bostwana with the 4 string oil can guitar, Highlife music from Ghana with kora, ethereal Kalimba from Tanzania, Mutwash inspired Congolese guitar for rotating your waist & cruisy dance moves for all to join in.
